EDUCATION

G.B Shah Commerce College
Bachelor of Commerce

(2022-2024)

Tops Technology Institute Training
for Data Analytics
(2024-2025)

TOOLS & TECHNOLOGIES

- Data Visualization: Power BI, Power Query, Excel (Pivot Tables, Charts)
- Programming & Scripting: Python (Pandas, NumPy, Matplotlib, Seaborn), R
- Databases & Querying: SQL (MySQL)
- Web Scraping: Visual Studio Code

SKILLS

- Decision-Making Ability
- Problem-Solving
- Time Management
- Quick Learning
- Creativity

SUMMARY

Skilled in collecting, cleaning, analyzing, and visualizing data to derive actionable insights. Proficient in statistical analysis, data modeling, and reporting using tools like Advance Excel, SQL, Python, and Power BI. Strong problem-solving and decision-making abilities to optimize business performance.

PROJECT IN DATA ANALYTICS

HR Analysis Dashboard Excel

Consumer Goods SellerDesigned an interactive HR dashboard in Excel with data visualization, automation, slicers, and pivot tables. Enabled HR teams to track employee performance, attrition, and recruitment trends for better decision-making and goal achievement.

IPL Dynamic Dashboard power Bi

Developed a dynamic IPL dashboard in Power BI, integrating real-time data visualization, interactive filters, and advanced analytics. Enabled insights into team performance, player statistics, and match trends for better decision-making.

Super Store Dashboard power Bi

This project involves designing an interactive Power BI dashboard to analyze sales, profit, and customer trends for a fictional Superstore. It helps businesses understand performance across different regions, products, and customer segments.
